

# European Teacher Training 24 – 28 August 2009 Ljubljana, Slovenia

**INVITATION for Participating**  
Apply Online Today!

**Seminar Title:**  
**Cooperation Between Mathematics And Sciences – From Research  
Towards Enhanced Teaching**

**Who can apply?** Mathematics, physics and ICT teachers. The seminar is designed for secondary teachers of all levels with the goal of implementing cross curricular teaching approaches (between mathematics and physics; insights into approaches between mathematics and biology or chemistry are given). The participants will be fully involved in practical work as workshops are the essential part of the seminar.

**Who will pay?** Participants can apply for travel/accommodation grants from the EU national Comenius-Socrates funds, so that travel/ accommodation/course fee etc. will fully be covered.

**Organizers:** The Partners of the European **ScienceMath** Project,  
see [www.sciencemath.ph-gmuend.de](http://www.sciencemath.ph-gmuend.de)

## More Information

Please, visit our websites and apply soon – the national Comenius-Socrates funds support the participation but only until they run out of cash.

Seminar-Website: <http://ec.europa.eu/education/trainingdatabase/> and then type in search form reference number: **SI-2009-007-001**

**Looking forward to meeting you!**

**The Local Organizers:** Prof. Dr. Damjan Kobal, University of Ljubljana and Tine Golež, St. Stanislav Institute, Ljubljana,  
And: The **ScienceMath**-partners from Denmark, Germany, Finland, and Slovenia with Prof. Dr. Astrid Beckmann, University of Schwäbisch Gmünd (Coordinator)
